## **Moff Interactive, Inc. Announces Completion of Web Sites For The Kingston Rotary and Northwest Pacific Imports Inc.**

**Kingston, WA (April 7, 2006) – The Kingston Rotary** was in need of a web site that they could easily update while providing information for current events, delivering e-mail newsletters, and offering a members only area. Moff Interactive, Inc. President Jeremy Moff stated, "We enjoyed working hand in hand with members of the Rotary to create an appealing web site. We were able to base the site on an easy-to-use content management solution that fulfilled their requirements. We invite you to take a look at the newly designed site at [www.kingston-nkrotary.org](http://www.kingston-nkrotary.org) and learn more about the Kingston Rotary and how it serves the community."

**Northwest Pacific Imports Inc.** was in a critical situation. They required that a web site be in place within 2 weeks so that it would be ready for a trade show that was important to their business. "We met the deadline, and created a web site that was both attractive, and promoted their products," said Moff. "One of the key features of the site is their project's video, which we converted to a quick-loading Flash animation. This allows for site visitors to experience seamless viewing directly in any web browser." Check out the video and the rest of the site at [www.nwpimports.com](http://www.nwpimports.com)

**Moff Interactive Inc.** provides Kitsap County businesses with the following services: Domain name registration, award-winning web site design, competitive hosting, marketing strategies, and content management solutions.

Thanks for reading our newsletter.

Sincerely,

Jeremy Moff  
Moff Interactive Inc.
